

## LOTTERY MAN MUST FACE JURY

A. H. Curtis Identified and Ordered to St. Louis.

## TWO CHINAMEN IN COURT

AS CHIN A DEFENDANT AND AS SING A PLAINTIFF.

A. H. CURTIS was fully identified before the United States Commissioner yesterday afternoon and he will be taken back to St. Louis to answer the charge of promoting a lottery through the mails, on which charge he has just finished a sentence of ten months in this county.

Pursuant to the law, Commissioner Twomey, after receiving a copy of the indictment against Curtis at St. Louis, set the hearing for the identification of the prisoner as the person named in the indictment. Postal Inspector Frank E. Sharp of this city, Postal Inspector J. D. Sullivan of St. Louis and Mrs. T. J. Scott, also of St. Louis, identified Curtis as the man, and he was held in bonds of \$500.

Mrs. Scott was Curtis' landlady in St. Louis, from which place he is accused of working a lottery. She knew him, however, by the name of Meyer, and testified that he received his mail in that name. Inspector Sullivan also knew the lotteryman by his alias. Marshal Heywood and Postal Inspector Sharp arrived in town early yesterday morning. The marshal met Mr. Sharp at Price and served the attachment on him. The inspector will answer the same in Judge Marshall's court Monday.

## CHIN NO SABEE COURT.

Chinaman Accused of Assault: Could Not Plead.

Ah Chin, the Chinaman who is accused of having assaulted Jim Sam, another Chinaman, with a cleaver, was taken before Judge Morse for arraignment yesterday on the charge of assault with a deadly weapon. It was readily discovered, however, that Chin did not understand the English language sufficiently to plead intelligently to the information and the judge, after giving the court to look into the case, Chin will appear again on Tuesday next.

Andrew Murray and John Wilkinson, who accompanied Chin to the court room, were straggled on informations charging grand larceny, and were given until Tuesday next to plead. Murray is charged with having stolen \$75 from Ah Sing in January, 1901, and Wilkinson is charged with having stolen \$130 from Mattie Miller on Jan. 22 last.

In the case of Ah Sing vs. the National Bank of the Republic, Judge Morse has rendered judgment in favor of the plaintiff for \$300 held by the bank, and represented by two certificates of deposit. Ah Sing was directed to give the bank a good and sufficient bond, and the bank is directed to turn the money over. Ah Sing is the Chinaman who was charged with having stolen \$75 from Mattie Miller on Jan. 22 last. Andrew Murray, colored, has also been charged with having stolen \$75 from Mattie Miller on Jan. 22 last. The certificates of deposit were taken at the same time, and the bank refused to turn the money over to Mattie Miller. The case is now on for judgment. In the event that the certificate turned up later.

## LANGLEY LOSES SUIT.

Court Refuses to Give Him Seat in Stock Exchange.

Judge Morse has sustained a general demurrer to the petition of J. W. Langley for a writ of mandamus against the Salt Lake Stock & Mining exchange, to compel the transfer of his name to the list of members. The exchange refused to accept the stock upon its books, for the reason that a member had been alien against it as a result of an indebtedness on the part of the original holder.

## Court Notes.

In the case of H. P. Folson vs. the estate of A. H. Raleigh, deceased, Judge Hall has rendered a judgment in favor of the defendant. The action was one to quiet the title to certain property.

In the separate maintenance suit of Matilda Parsons vs. Frank Parsons, Judge Hall has rendered a judgment in favor of the plaintiff. The case was one for the return of a child, and the court has ordered the child to be returned to the mother.

The board acted on the recommendations of the judge and district attorney who tried the case, and those of parties whose houses were broken into.

Bishop H. E. Briggs appeared before the board and offered the young man employment at his place. Green accepted joyfully, and promised never to return to his life of crime.

The board also paroled Thomas Hopworth, who was sent up from Davis county for a year last September on the charge of criminal assault. The parents of the girl upon whom the assault was made signed the recommendation for his release.

## FIND A BOAT BUILT IN

DAYS OF IRISH KINGS

London, March 15.—A remarkable discovery has been made in County Mayo, Ireland, where a wooden boat, believed to be nearly 2,000 years old, has been dug up by some laborers.

The boat is beautifully carved from the trunk of an oak tree. It is forty-six feet long and shows absolutely no signs of decay. The wood was so hard that hatchets made scarcely any impression on it. Excursions are now being organized to view this relic of Celtic handicraft, which will shortly be taken to the Dublin museum.

This smoker was such a success that the boys intend to give another in the near future.

Battery A turned out for its regular monthly inspection last Monday night in full dress uniform. There were about forty men in line for the inspection. Dancing was indulged in until 11 o'clock, after which the guests departed with nothing but good wishes for the battery.

On account of the heavy fall of snow, the High school cadets did not hold their regular retreat parade Friday afternoon. The cadets were in the company drill in the building until the snow disappears, after which time they will again hold their regular parades three times a week.

As soon as the by-laws of troop A are approved the initiation fee will be \$1 and a monthly assessment of 25 cents for each man.

Washington, March 15.—Senator Clark of Montana is quoted by today's Washington Post in reference to his declining to serve on the campaign committee as follows: "I am neglecting my business affairs now and am willing to let them take care of themselves as long as congress is in session. I cannot, however, undertake any work that will take me down during all the summer months and until next fall."

"If I became chairman of the congressional campaign committee I would have to establish headquarters at Washington, New York and Chicago, and would not get a chance to spend an hour at home. As it is, when congress adjourns I shall go to Montana and stay two months, looking after personal matters, and then I shall take a sea voyage for a rest."

TO PROTECT THE FORESTS. Reserves Are Transferred to Custody of Agricultural Department. (Special to The Herald.)

Washington, March 15.—Chairman Lary of the house committee on public lands today favorably reported a bill transferring the forest reserves to the agricultural department. The report states that the main purpose of early transfer is to secure the forests as rapidly as possible, this being necessary in opening the farms.

It is now the duty of the government to protect the forests, wherever they are found, and a large area of timber lands still remains from which the reserves may be created. The bureau of forestry of the agricultural department is organized on lines of forest preservation, and the committee recommended that all forest reserves, boundaries of which have been definitely established, shall be transferred to the agricultural department for care and management, but none of the reserves created are to be placed in charge of this department.

## STATE NEWS

CRITICIZE THE ASSESSOR.

Has Made Low Assessment of Logan Sugar Company.

Logan, March 15.—There is much comment here adverse to the county assessor for his action yesterday in fixing the value of the Logan sugar factory and its merchandise on hand. The company is capitalized at \$500,000, and has on hand about \$150,000 worth of sugar, yet the assessor placed the assessment value at \$140,000. It is altogether out of proportion, the critics say, to the assessment on railroad, telephone and telegraph companies.

The sugar factory field men have stopped writing contracts for beets, having secured 4,000 acres—all the factory desires. Much more land could be secured if it were desired.

The county commissioners met in special session this morning to consider the question of caring for Lorenz Almond, an indigent boy, who has been turned out on the street.
